PRESS RELEASE

WINWOOD CIRCLE BRIDGE REPLACEMENT

Somers, Conn. - Todd Rolland, Director of Land Use & Public Works, announced that the Town of Somers is contemplating a project to replace the Winwood Circle Bridge over Wright Brook. The bridge replacement project would receive federal funds under the Federal Local Bridge Program administered by the Connecticut Department of Transportation.

If undertaken, the project design would be expected to begin in early 2026, with construction likely in 2027 or 2028.

Todd Rolland points out that local and state policy encourages citizens to be informed early on about such projects and raise any concerns with municipal officials early in the planning process. Persons wanting additional information should contact Todd Rolland at trolland@somersct.gov or (860)763-8238.

The cost of the bridge replacement would be reimbursed 80% by federal aid, with the remaining 20% paid from state funds.

Federal aid for the project was authorized under the Moving Ahead for Progress in the 21st Century Act, Fixing America's Surface Transportation Act, and Infrastructure Investment and Jobs Act, administered by the Federal Highway Administration and the Connecticut Department of Transportation.
